

NCSA PLAYER REGISTRATION INSTRUCTIONS

The NCSA Player Registration process is the online tool developed by CollClubSports by which players enter themselves in to the NCSA system and thus begin the process of becoming cleared to be eligible to compete in NCSA-sanctioned games. Once a player completes the registration process they move in to a holding “Registration Queue”. Once the team submits an Academic Eligibility Letter, players that are deemed eligible will be moved from the “Registration Queue” to the team’s official “Roster” and then will appear on the NCSA website as a player for that specific team. Only when this happens is a player deemed eligible to compete in NCSA-sanctioned games. Additionally, once the player is added to the official roster the stats for that player will be able to be tracked through the NCSA website and the player will become eligible to win awards such as Player/Pitcher of the Week and All-American honors.

IMPORTANT NOTES:

- 1) During the registration process, players will be asked for information such as a picture, biography, jersey number, and position. If they don’t have this available, that is okay, they can log back in to the player registration system any time after completing the process and add/edit these portions of their player profile.
- 2) It is important that players take their time as they complete the player registration, much of the information they will be asked is sensitive to determining their eligibility to compete in the NCSA and some of the information cannot be changed once they initially enter it. That said, we stress that players read through the process thoroughly and enter all information **accurately**.
- 3) Players who registered through the player registration system in a previous season will be recognized by the system and will auto populate many of the fields. It is important that they make sure this information is still accurate and update it as necessary.
- 4) **We have experienced some school email servers blocking our emails to school issued email addresses. We recommend using a personal email such as Gmail, Yahoo or Hotmail so that your account confirmation reaches you.**

Here are the steps to begin the player registration process:

STEP 1: Contact your team president and/or head coach and ask him/her what your player registration “Team Code” is. If they are unsure what you’re referring to, tell them that when they log into the NCSA website with their Team Manager credentials it can be found by clicking on the Team Setting option under the blue gear in the top right corner. Once you have the “Team Code” move on to step 2.
